

I would like to make a motion to approve resolution No. 2122-20 with the following friendly amendments:

Between 2nd & 3rd Whereas, I would like to add this additional Whereas:

WHEREAS, Covid-19 hasn't been found to cause widespread death in children aged 17 and under, accounting for just 37 deaths out of 70,010 or .0005% (per data from the CDPH, October 13, 2021); and

In the 4th Whereas....

I would like to (in the last line) delete the "for lower quality instructional programs; and"

Change it to: "which will leave traditional in-person K-12 schools which could cripple our ability to function as a quality educational program; and"

So it would read as:

"Whereas, While we respect the right of parents to choose the most suitable educational program for their children, we believe the vaccine mandate will result in large numbers of families choosing to leave traditional in-person K-12 schools which could cripple our ability to function as a quality educational program; and"

Also add _____ after the 6th Whereas, add

WHEREAS, California is the only state in the Union to mandate this vaccine, despite the fact that the data indicates Covid is not a threat to school-aged children, and.

In the Therefore be it resolved

For the third line, take out "and supports"
