

ADMINISTRATIVE STAFF ORGANIZATION

The Superintendent shall organize the administrative staff in a manner which best enables the district to provide an effective program of instruction.

(cf. 2230 - Representative and Deliberative Groups)

Authority originates with the publicly elected Governing Board. Through the Superintendent, authority and responsibility are delegated to the administrators and staff.

District organizational operations shall be restructured to reflect which decisions/services will be managed by district central offices and which will be managed by school sites.

The Superintendent or designee may adjust staff responsibilities temporarily or permanently to accommodate the workload and/or individual capabilities.
