

COMMUNITY EDUCATION TEACHERS

Teachers presently employed in the District may be considered for part-time employment in the Community Education Program.

Community Education teachers are classified as temporary, and are employed on a part-time hourly basis, as recommended by the Superintendent and approved by the Board of Trustees.

Teachers in the Community Education Program who return for a second and subsequent years (up to four years), who have taught over 100 hours in the previous year, shall be eligible for an hourly wage increase.
