## SAMPLE BALLOT

### Capistrano Unified School District LOCAL SCHOOL IMPROVEMENT BOND MEASURE

"To repair and improve Aliso Viejo's aging neighborhood schools, fix deteriorating roofs, plumbing, sewer, electrical systems; and construct/acquire modern classrooms, facilities and technology that support college/career readiness in science, technology, arts, math and skilled trades, shall Capistrano Unified School District's (SFID #3) measure authorizing \$114,000,000 in bonds at legal rates be adopted, levying approximately 4¢ per \$100 assessed value (\$7,000,000 annually) while bonds are outstanding, with independent citizen oversight and all money for Aliso Viejo schools?"

- YES  
 NO

IMPORTANT INFORMATION ON THE UPCOMING ELECTION FOR ALISO VIEJO SCHOOLS

# UPCOMING SCHOOL IMPROVEMENT BOND MEASURE **FOR** ALISO VIEJO SCHOOLS

## Preparing for the Future

Aliso Viejo schools have provided high quality education for years, but have outdated classrooms, science labs and instructional technology that require upgrades in order to meet current academic and safety standards. Our Aliso Viejo schools were built as many as 30 years ago, and need repairs and upgrades to continue serving our communities for decades to come.

## Addressing Facility Needs

On June 15, CUSD Board of Trustees voted to place a local school improvement bond measure on the November 2022 ballot that could generate up to \$114 million in locally controlled funding to repair and modernize CUSD schools located within the City of Aliso Viejo. This measure would cost homeowners 4¢ per \$100 (\$44 per \$100,000) of the assessed value (not market value) per year while bonds are outstanding. Funds generated by this local school improvement bond measure would go directly to repair and upgrade the schools serving Aliso Viejo's city boundaries only.

## Dedicated Local Funding for Aliso Viejo School Improvements

If approved by voters residing within the City of Aliso Viejo, a local school improvement bond measure would:

- Upgrade classrooms, science labs and arts facilities to support high-quality instruction in science, technology, engineering, math and the arts
- Modernize labs and career-training facilities that prepare students for careers in areas such as healthcare, biomedical science, computer science, robotics and skilled trades
- Install, repair or replace air conditioning units in classrooms to improve air quality
- Repair or replace leaky roofs, wood and support beams that have termite damage and dry rot, as well as replace plumbing and failing electrical systems
- Upgrade older schools so they meet current health and building safety codes and improve access for students with disabilities
- Keep computer systems and instructional technology up to date

## Fiscal Accountability Required

- All funds would stay local in Aliso Viejo to improve schools — no funds could be taken by the State or be diverted to other schools within CUSD
- A detailed project list is required for a clear system of accountability
- Independent citizen oversight and audits would be required
- No funds could go to teacher or administrator salaries

## Election Information

**Election Date:** November 8, 2022

**Ballots in Mail:** October 10, 2022
