CULTIVATING GREATNESS

ENVIRONMENTAL STUDIES ACADEMY

#CAPOFORWARD

We're one of just a few schools in the district selected to accelerate learning through an emphasis of technology and collaborative teaching practices.

We offer an integrated study of the natural environment, where our students learn core academic subjects and engage in problem-based learning for real-world application.

HIGHLIGHTS

Outdoor classroom with weather station

Hands-on outdoor garden

Strong relationship with Ocean Institute enables hands-on learning

Exploratory labs for art, music, science and technology

Chromebooks for all students in grades 2-5

OUTCOMES AND GOALS

- Ability to conduct hands-on science investigations and find real-world solutions to local and global concerns
- Utilize technology for research and multimedia presentations
- Ability to present and rationalize solutions to a variety of audiences
- Exposure to available career paths and knowledge to continue exploring options throughout middle school and high school
- A personal Google Drive (digital portfolio) that students can take with them to middle school and beyond
