

One company. One dedicated team. One customer—You.

Mohawk Industries strives to meet or exceed all of the highest standards our government customers require for their projects. We are proud that our commitment to excellence provides an unprecedented array of styles, colors and patterns of broadloom and modular carpet as well as luxury resilient and rubber flooring for every need.

Your challenge. Our opportunity.

We want to listen and discover how best to understand your challenges, needs and expectations. Success comes from a partnership, drawing from the combined knowledge of its team members. Mohawk is the largest flooring manufacturer in the world and will be there to make sure that your goals become ours too.

Sustainable Leadership

Sustainability is not simply good business; it's an ongoing culture of commitment to improving the world around us. And no company understands this better than Mohawk.

Backed by a history of forward-thinking innovation, our products and people continue to positively impact the environment from every angle—including smart flooring solutions that contribute to LEED® points, technologies that reduce waste and save energy, the recycling of billions of plastic bottles every year, and donating flooring and time to “green building” projects across the country.

We're reducing our environmental footprint with every step we take, and now we're extending this philosophy to our media materials. Digital content delivery represents the first phase of what will eventually become a comprehensive online editorial resource—helping us to save paper and also your time.
